valerialovato90@gmail.com

I am an Italian architect, with 4 years of experience. I have worked on different architecture scales, such as urban planning and interior design and have contributed to some international competitions.

I recently carried out a Postgraduate master's degree in Web Design, which is a great passion of mine.

The experiences gained abroad have allowed me to develop good teamwork and organizational skills.

You can find my portfolio at www.valerialovato.com
